Example Tuition Discounts

We've created several example scenarios to work out what your tuition costs would be with different discount scenarios.

- Two family members (spouse, sibling, parent, grandparent) are both attending First or Second Year: Once both deposits are paid, one student pays full tuition and the other receives a \$500 discount.
- Three family members are all attending First or Second Year: Once all deposits are paid, one student pays full tuition, ***both*** remaining students receive a \$500 discount.
- One family member is attending Third Year and one is attending First or Second Year: Once both deposits are paid, the Third-Year student pays full tuition and the First- or Second-Year student receives a \$500 discount.
- One family member is attending Third year and two other family members are attending First or Second Year: Once all deposits are paid, the Third-Year student pays full tuition and both remaining students receive a \$500 discount.

Important Notes:

- Discounts are only applied when all family members have paid their deposit and a family member emails the Glow College Finance Team, listing the family member(s) and account ID#(s).
- No discounts are given to Third Year students, regardless if multiple family members are attending school
- If a family member does not register or withdraws from school, any discounts based on that family member will be removed and the discounted amount will become due and payable.
